Promoting DX and DXing throughout Arkansas

December 2001

ADXA OFFICERS

DENNIS SCHAEFER W5RZ PRESIDENT

DAVE JACQUES K5DV VICE PRESIDENT

E. GLENN WOLF Jr. N5RN SECRETARY/TREASURER

ADXA MEETING MINUTES

ter meeting of ADXA was held at Pavilion 2 at Crystal Springs, Hot Springs, Arkansas

on 15 September 2001. Those in attendance - Paul Wynne, AF5M, Myrtle Wynne, N500I, Dennis Schaefer, W5RZ, Dave Jacques, K5DV, Libby Jacques, WB6AXD, Jimmy Ballew, N5ZIV, Stewart Long, KE5PO, Martin W5HTY. David Hankins. Norris. K5UZ, Earl Smith, N5ZM, Leonard Mendel, K50VC, Ken Blevins, K5ALO, Frank Kollatt, Jr, W5BPT, Roderick, K5UR, Ollie Gade, W5GO, and Glenn Wolf, N5RN. Guest included Patrica Blevins, Madge Kollatt, KA5RSH, Norma Mendel, KC5DDO, Melissa Schaefer, N5HX, and Jean Gade.

The meeting was called to order at 1323 Local with Dennis Schaefer presiding. Dennis thanked the Hot Spring group for taking care of the food and snacks. Dennis mensecurity tioned that a change forced the relocation to Crystal Springs. AF5M motioned to dispense with the reading of the minutes. K5DV seconded and the minutes were accepted as printed in the newsletter.

The Treasurer's report was given by Glenn, N5RN. The report was

accepted as presented.

Ollie, W5GO, reported that Glenn, K6ASB, has been moved from one nursing home to another and he would get the name of the nursing home. Ollie indicated that Glenn did recognize him.

Earl indicated that he would talk to Wayne Beck about getting the ID and Password so that the AD5XA web page could be update. Unless some one volunteers, N5RN will take on this responsibility.

Paul, AF5M, reported that AD5XA repeater will be at the 200 foot level on the Arkansas State Police tower. We have 7/8" and 1/2" hardline and grounding kits. May have to pay to get climbers to install antenna with short notice. Climbers will have to be bonded Dennis, W5RZ, indiand insured. cated that he may know of some climbers. Paul also indicated that he received a reprieve on the repeater pair.

N5ZM informed everyone that he has 304 confirmed on CW.

Stewart Long, KE5PO. mentioned something that many didn't know -W5RZ was on a Dxpedition Stewart discussed the years ago. Christmas party—Will be at LR Hilton (University and 630), will hold up to 50 people. will pick up the cost of the meet-Rick Harris to be the ing room. Meal will be at 1200. program.

(Continued on page 2)

Rick Roderick, K5UR, was introduced and spoke on the Log book of the world. Rick says that every EQSL to date has been busted. This will a joint effort with others to get the ball rolling and likely to be a vear down the road. It is intended it will be selfthat Rick also mentioned a supporting. Challenge for 6M through 160M less The plaque is really nice and worth the effort.

NEW BUSINESS

Glenn, N5RN, passed around a D68C poster sent to the club for supporting their recent DXpedition.

Dave Jacques volunteered to draft up criteria to address the issue of Honorary Members. This should be discussed at the next meeting.

A motion was made to adjourn. It was seconded and the meeting adjourned at 1415.

PRESIDENT'S COLUMN

Dennis Schaefer, W5RZ

Since 9/11, my attention has been more on ARES and RACES than DXing, but the quest for the Honor Roll continues. E3ØNA and F0/SP9FIH are in the log for new ones, and the QSL's are coming in steadily. Band conditions have been great and DXing seems to be thriving.

John Papp, K5UC, suffered a heart attack and had to sell his house and move into an assisted living facility. I helped with the sad job of taking down his antennas and tower. Although John won't be able to chase DX much now, I promised him that his 20 meter antenna would work North Korea someday.

Our thoughts and prayers continue to be with Glen, K6ASB, and the family of Steve Rumfelt. Steve was work-AE5H. ing out of state and had little time for DXing and club activities, but he was friend and fellow DX chaser. He will be missed. Since DXers hardmanv of are charging Type A personalities, we can consider ourselves reminded that we should watch our diet, get some exercise. and try to enjoy each day. If we do that, maybe we will be around to work North Korea someday.

Does your rig have 6 meters? Conditions have been excel-K5UR and W5RZ worked lent. several VK stations on 6. and I thought it couldn't get any The evening of Nobetter. vember 7, I had the rig on 5Ø.11Ø listening to a KØ call CQ DX on CW. "Wishful thinking" was my first impression. I had tuned the band and there no signals except I almost fell out of my chair when a JA1 called him with an S9 signal. I went down to 50.099 and called CO. A JA called me and then a small pileup developed! worked 8 stations during the 6 minute opening and then things closed up tight. Maybe working WAC on 6 this sunspot maximum is still a possibility.

It was nice to see such a good group at the September meeting. As usual, the Hot

Springs gang were great hosts and we appreciate their efforts. I hope to see everyone at the December meeting in Little Rock. Bring a friend or two. We'll have a good meal, swap some stories, and see another great slide show by AISP.

73,

Dennis W5RZ

MARK YOUR CALENDARS

These are the dates for future ADXA meetings. Please note the years as well as the date!

- \Diamond December-1st Saturday (\emptyset 1 Dec $2\emptyset\emptyset$ 1)
- March-3rd Saturday (16 March 2002)

Next ADXA Meeting

The 4th Quarter meeting of ADXA will be held at the Little Rock Hilton. Meal is at noon. Meeting afterwards.

Directions to the Hilton Inn-Little Rock

From I-40 East

Take I-30 toward Little Rock/ Texarkana to I-630 West.

I-630 West to South University

Exit onto South University and proceed under overpass. Hotel is on immediate left.

From I-40 West

Take I-430 South to I-630 East

I-63Ø East to South University Exit

Hotel will be directly in front of you.

From I-30 East

Take I-630 West to South University Exit

Exit onto South University and proceed under overpass

Hotel is on immediate left.

From I-30 West

Take I-630 West to South University Exit

Exit onto South University and proceed under overpass

Hotel is on immediate left

Meal will be Grilled Chicken Caesar Salad. Romaine lettuce topped with Grilled Chicken Breast. seasoned croutons Parmesan Cheese with Creamy Caesar dressing & Ranch Dressthe side, rolls on Crackers, chocolate mousse. Iced Tea. Cost of the meal with be \$13.00 including tax and gratuity.

2002 ADXA Dues

Glenn, N5RN

ADXA dues for 2002 are coming due. I will be collecting 2002 ADXA dues at this meeting.

BIG TOWER

Nick Kennedy, WA5BDU

What do hams dream of? When the lottery ticket is verified and the Brinks truck pulls up, what fantasies are realized? Shiny new flagship transceivers from Sevierville or Osaka, one per band, with washing machine sized amplifiers?

Sure, all that and more. But think the persistent dream is of a A quiet, secluded place, far from neighbors and covenants. computer gizmos and It's on high ground--really noise. It has a sturdy cabin for the ham shack. But most important is the tower. It's not some spindly thing held vertical by a prayer and multiple guy cables singing under tension. Not something that onlv а circus daredevil This tower is substantial. It stands confidently on four massive legs. It has a platform at the top that you can walk around on.

And it's tall. VHF signals beam to distant destinations unimpeded by trees, ridges, and boundaries drawn on maps. And HF signals roll out, filling the vast space you see from the top. E and H fields expand and contract and launch themselves toward Asia and Africa and Europe, toward tiny oceanic reefs-places you vaguely remember from geography class and exotic places you saw in this morning's paper.

What's all this got to do with reality? Funny things happen. The dominant communications company in this country decides to abandon a vast network of microwave towers in

favor of satellites and tiny fibers. Towers built with no expense spared are suddenly surplus assets that produce no As a late joiner, I'm not sure of the exact sequence of events. I know that at the Little Rock Hamfest. John Evans WB5BHS, and Charles Shingleur, K5NRC, approached me, like schoolyard grinning pranksters and spouting some tall tale about buying an AT&T microwave tower. Naturally, I made some excuse and backed away quickly.

I heard about it again a short while later. As you'd expect, Dennis, W5RZ, was in the thick of it and the probable ringleader. (Actually, none this would have happened if AC5DK, Kevin Manzer, it off that tipped us available) It was a long shot, but we might be able to get this tower site. were doing it around the country, as reported on the ARRL But even though it could be cheap compared with its original cost, it was too much for one or two guys to take Could a half dozen or local hams be found that like competitive operating? that wouldn't mind throwing in something undefined with uncertain payback? an I've heard that if you want to scare someone, offer him exactly what he wants. A11 kinds οf fears emerge: hidden legal abilities, bergs, escalating costs and conflicts that turn your former buddies into adversaries.

(Continued on page 5)

The ADXA Quarterly Page 5

But the sight of that tower was too much for seven dreamers: the three I mentioned, plus Jimmy Poole, WU5X, Jon Caery, KC5LVW, and the ever-adventurous J. Setcer, N5QJ. And of course your reporter is the seventh.

You know by now what happened. Verbal commitments from the seven were given, an offer was made and then increased, and the tower was ours. What's it like? We have an acre of land and a good access road.

There's a 600 square foot building, built last with three-phase to power and air conditioning. There's even 3Ø а kW generator. The tower is 112 feet tall. built like a fire tower, but has a ladder instead of stairs. are four large microwave horns, two on top and two about halfway up. There is a large platform of steel grating at the top with a railing all around. We understand sites constructed were withstand, to a certain extent, the physical stresses of a nuclear attack.

The place is northwest of Dover. We think the peak we're on is called Colony Mountain, but we're not even sure of that. The group now informally just calls it The Big Tower, or uses the initials B-A-T.

Where are we now and where are we headed? If I were a cartoonist, I could draw seven guys thinking same about the tower, but thought balloons above their heads would show seven different images. (My wife sees it as seven little their with secret hideout/ clubhouse.) But we have a fairly consistent vision of HF beams and wire antennas and of VHF/UHF antennas at the top. A serious, contest style installation is the goal. We're going to exploit this thing from 160 meters to 70 cm and maybe beyond.

Getting all this stuff installed on a tower this tall will take a little time. But progress is being made. building has gone from creepy Damage to positively homey. previous vandalism been repaired and improvements including carpeting have been It says something installed. about the enthusiasm of this that strenuous like welding, weed cutting and painting went on during the hottest days of summer. Operating positions are now being mapped out and partition walls planned. We can't wait friends up to check have our the place out. Meanwhile. check out some facts and photos on our web site hosted by Charles Shingleur and found at http://www.royal.ugate.net/ cmcc/. Hope to see you all at the Big Tower soon!

Nick Kennedy, WA5BDU

DXCC Card Checking

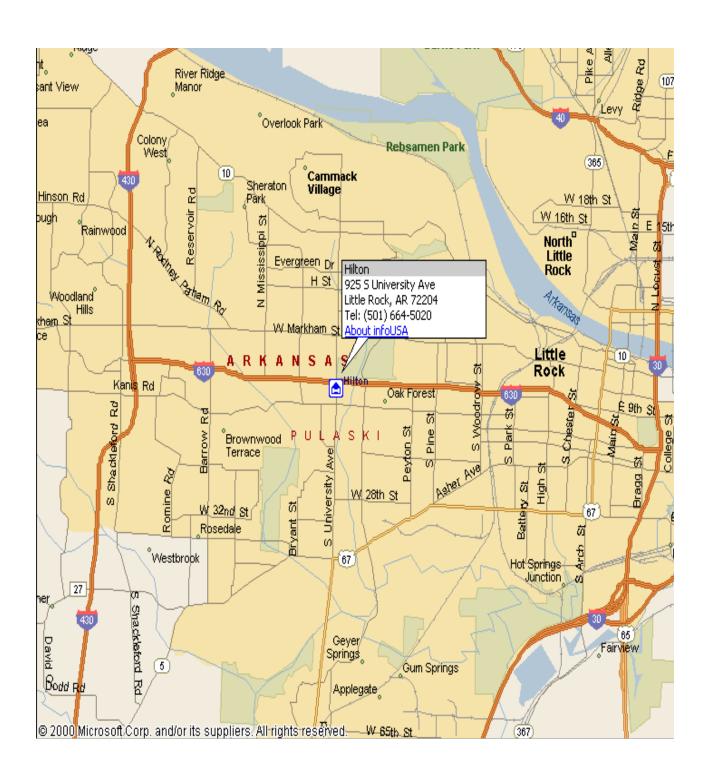

Earl Smith, N5ZM, has indicated that he will be available for DXCC card checking during this meeting. He asks that you read the directions for creating your submission and follow them carefully.
